Oral Presentation O8.4

THE LEGALITY OF THE CUBAN MISSILE CRISIS QUARANTINE

Lindsey Alpert and Michael Weis*

History Department, Illinois Wesleyan University

In October 1962, U.S. aerial surveillance over Cuba triggered a diplomatic crisis with the Soviet Union. U.S. leaders scrambled to come up with a solution to prevent a possible attack with as little provocation as possible. The U.S. ultimately decided to implement a naval “quarantine” on Soviet ships. However, one question remained: was it legal? Scholars in opposition called on international law citing freedom of the seas and aggressive unilateral action. Those in favor remarked that the United States had a right to self-defense and to maintain hemispheric peace and security. While debate still ensues, a majority of the academic community in history and law generally accept the actions as conforming to international law.
